

# 9th

## ANNUAL CONFERENCE

**12-13** September  
2025

LEELA BHARTIYA CITY  
BENGALURU, INDIA

**Society of Minimally Invasive  
Cardiovascular and Thoracic  
Surgeons of India**

# Welcome

Welcome to the **9th Annual Conference of Society of Minimally Invasive Cardiovascular and Thoracic Surgeons of India** to be held on **12th and 13th September 2025** at **Leela Bhartiya City**, Thanisandra Main Road, Bengaluru 560 064

## About **SMICTSI**

### **SOCIETY OF MINIMALLY INVASIVE CARDIOVASCULAR AND THORACIC SURGEONS OF INDIA**

In this era of technological revolution where everything is micro sized and nano sized, Minimally Invasive Cardiac Surgery also known as “**KEY-HOLE**” cardiac surgery is a highly technologically advanced form of cardiac surgery which involves very small incision (as small as 2 inches) for performing complex cardiac surgeries like bypass surgery, valve replacement, aortic surgery and surgeries for congenital heart defects. This form of surgery is being practised at very few centres in India with only a few surgeons expertise in it.

With **Dr.Yugal K Mishra** as the Founder President, **Society of Minimally Invasive Cardiovascular and Thoracic Surgeons of India** has been constituted in our country with the aim of creating a national level platform to discuss, learn and direct exchange of technology, techniques and new ideas amongst leading cardiac surgeons with tremendous experience in the field of minimally invasive cardiovascular and thoracic surgery in India and all over the world.

## About **Host City** The Dynamic Heart of India's Technological Renaissance

Bengaluru, the capital of Karnataka, is a vibrant and fast-growing metropolis known as the “Silicon Valley of India”. Founded by Kempegowda I in the 16th century, the city has evolved from a modest town into a global hub for technology, innovation, and culture.

It plays a crucial role in India's IT industry, housing major tech companies like Infosys, Wipro, and several international giants. Bengaluru is also a center for education and research, with premier institutions like IISc, IIM Bangalore, and NIMHANS.

Despite its rapid urbanization, the city retains a rich cultural heritage, celebrated through its festivals, arts, and architecture. Known for its pleasant climate, green parks, and cosmopolitan lifestyle, Bengaluru also offers diverse cuisine, vibrant nightlife, and a strong startup ecosystem.

However, the city faces challenges such as traffic congestion, pollution, and infrastructure strain. Efforts like the Smart City Mission, Namma Metro, and environmental initiatives aim to create a more sustainable future.

## Organizing Committee

Dr. Sathyaki Nambala

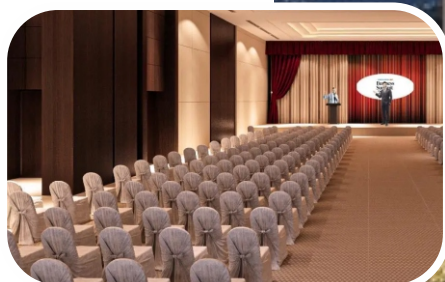

Dr. Dharmesh Agrawal

Mr. Senthil Kumaran Dhanakotti

## Registration Table

Category	Up to August 14th 2025	From August 15th 2025
